

WENKU SPORTS

NON-POWERED FITNESS EQUIPMENT

2026 B2B PRODUCT CATALOG

SELECTED SUPPLY RANGE

Dumbbells / Kettlebells / Pilates / Plates / Bars

Cover image: supplied production-context photograph; use does not by itself establish facility ownership.

Built for a buyer's decision

A product catalog that separates confirmed data from details still requiring a final quotation.

What WENKU can support

A selected supply range for distributors, retailers, studios and private-label programs. Products are reviewed case by case for specification, packaging, destination-market requirements and lead time.

BUYER BRIEF

Market, quantity, target price and timing

PRODUCT REVIEW

Weight, finish, carton and customization

ORDER CONTROL

Sample, signed specification and schedule

How to read this catalog

CONFIRMED

Visible in a supplied workbook/catalog or directly confirmed by WENKU.

VERIFY

Useful for sourcing, but reconfirm units, version or final SKU before quoting.

NEEDED

The range is visible, but key commercial or technical fields remain incomplete.

Commercial relationship: use Selected supply range and Sourcing and customization available. This catalog does not claim every product or photographed process belongs to a WENKU-owned facility.

Rubber hex dumbbells

A first-wave category with real product photography and supplied carton specifications.

2.5 - 50 KG

Metric and selected lb markings

Rubber-coated hex heads

Carton data available

Weight	Carton (cm)	Units/carton	Status
2.5 kg / 5 lb	27.5 x 25 x 16	6	Confirmed
5 kg / 10 lb	27.5 x 21.5 x 19.5	4	Confirmed
10 kg / 20 lb	33.5 x 27.5 x 13	2	Confirmed
20 kg / 40 lb	37.5 x 16.5 x 15.5	1	Confirmed
30 kg / 60 lb	41 x 18.5 x 17.5	1	Confirmed
47.5 / 50 kg	51.5 x 26.5 x 21	1	Confirmed

QUOTE CHECK

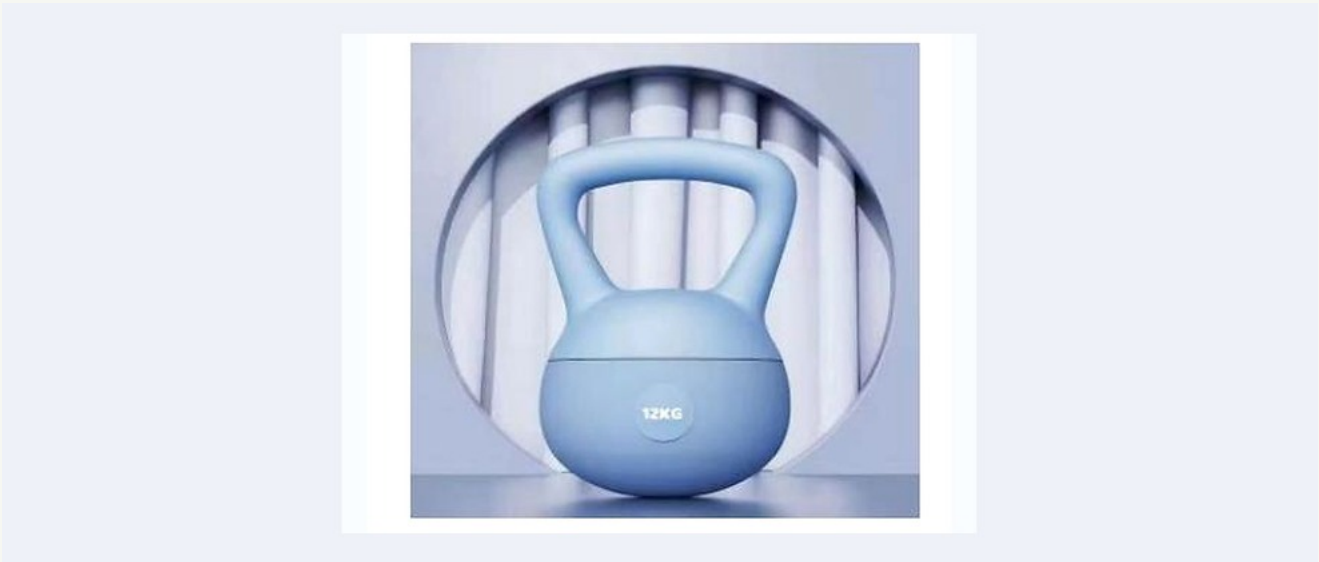

Confirm rubber compound, handle finish, weight tolerance, logo method, carton strength and destination-market documents against the selected version.

Source: supplied rubber-hex-dumbbell carton sheet; mm values normalized to cm. Image: supplied high-resolution product photograph.

Soft kettlebells

Quiet, floor-conscious positioning for home fitness, studios and retail programs.

Supplied size range

Weight	Carton (source)	Units/carton	Status
2 / 4 / 5 / 6 kg	19.5 x 19.5 x 29	1	Verify unit
8 / 10 / 12 kg	21 x 20.5 x 31	1	Verify unit

VERSION CONFLICT

One supplied catalog begins at 2 kg; another begins at 2.5 kg. Treat the starting weight as version-dependent until the supplier confirms the exact line.

IMAGE STATUS

Previously supplied catalog image is usable for this catalog and one-to-one sales. Request clean original photos before large-format paid advertising.

Before promotion

Confirm outer-shell material, filling, weight tolerance, base construction, odor/color requirements, drop/abrasion tests, packaging and claims such as quiet or floor-friendly for the final SKU.

Sources: supplied partial catalog page 4 and supplied 7-page catalog page 4. No matching image was found in the 43 camera originals.

A wider kettlebell range

Selected options for strength, conditioning, home fitness and retail assortments.

Range	Visible source range	Next specification step
Color-accent painted	2-40 kg	Confirm finish and carton by weight
Cast iron	6-24 kg in supplied table	Confirm surface version and full range
Vinyl-dipped	2-20 kg	Confirm coating, color and carton
Sand-filled	2-24 kg	Confirm filling, shell and tolerance
Soft	2/2.5-12 kg	Resolve version conflict; confirm material

ASSORTMENT BUILD

Select a buyer's channel first: commercial gym, home fitness, studio, retail or e-commerce. Then align weight increments, color system, logo, packaging, claims and destination-market requirements.

Source range: supplied partial catalog pages 1-5. Photograph shows available kettlebell samples; exact SKU match requires confirmation.

Pilates mini ball

A separate buyer path for studios, recovery channels, yoga brands and e-commerce sellers.

Commercial brief

Field	Current information	Before quotation
Diameter	23 cm / 25 cm in supplied artwork	Confirm final SKU
Rated load	150 kg (300 jin), user confirmed	Retain traceable test record
Surface	Textured / matte visual reference	Confirm material and finish
Claims	Pilates and general exercise use	Do not claim certified anti-burst without evidence

IMAGE NOTE

The supplied lifestyle image is treated as a concept visual, not manufacturing evidence. Obtain clean product, valve, texture, packaging and load-test photographs for the paid campaign.

Sources: user confirmation for 150 kg rated load; supplied visual artwork for 23/25 cm references. No certification is asserted.

Grip plates and weight plates

Multiple finishes and grip structures for bars, home sets and commercial training.

Selected line	Weight	Carton (cm)	Units/carton
Tri-grip plate	2.5 kg	21 x 21 x 7	2
Tri-grip plate	10 kg	33 x 33 x 9	2
Tri-grip plate	20 kg	40.5 x 40.5 x 5	1
Fly grip plate	5 kg	26 x 26 x 8	2
Fly grip plate	20 kg	46 x 46 x 6	1
Dual-hole plate	25 kg	45 x 45 x 6	1

QUOTE CHECK

Confirm hole diameter, plate diameter/thickness, weight tolerance, coating/rubber compound, odor, logo method, bar compatibility, carton protection and final test/document requirements.

Sources: carton workbook sheets for dual-hole, tri-grip and fly grip plates. Photograph: supplied high-resolution plate inventory image.

Bars, collars and set programs

A visible supply range with technical specification work still required.

Data required before quoting

Dimension	Construction	Commercial
Overall length	Bar weight	MOQ
Sleeve/shaft diameter	Material / heat treatment	Packaging
Load rating	Knurl and bearing/bushing	Logo / private label
Collar type	Surface finish	Lead time

CURRENT STATUS

Olympic and threaded bars, straight and curl formats, and collars are visible in supplied source material. No final dimensions, load ratings or carton data are used in this catalog.

Sources: supplied partial catalog page 21 and supplied high-resolution sample-rack photograph. Technical specifications needed.

Build the right assortment

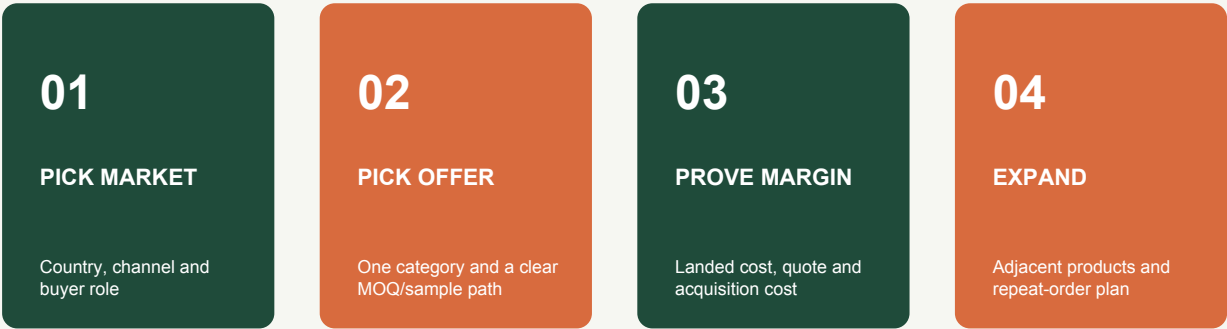

Long-tail products remain available for sourcing conversations after the first-wave categories are validated.

Category	Selected lines	Status
Dumbbells	Round head, eco, painted, chrome, vinyl, light hand weights	Range visible; specs vary
Kettlebells	Painted, cast iron, dipped, soft, sand-filled	Selected specs available
Plates	Painted, rubber, coated grip, chrome	Selected carton data available
Functional	Weighted sandbags and vests	Need specification
Pilates	Mini ball program	23/25 cm visual references

Do not launch everything at once

For faster profitable validation, use one product-market landing page and one quotation path per first-wave category. Add long-tail products after real inquiries show cross-sell demand.

Source range index: supplied partial product catalog pages 1-26. Commercial prioritization is a WENKU planning recommendation.

From source to signed specification

Use cinematic production context to earn attention, then use documented checkpoints to earn the order.

Recommended control points

Before sample	Before production	Before shipment
Signed SKU brief	Approved sample / color	Final inspection scope
Material and finish	Packaging artwork	Carton and markings
Weight/tolerance	Lead-time schedule	Documents by destination

PHOTOGRAPHY BOUNDARY

The supplied process photographs can support industrial brand storytelling. They do not, by themselves, prove WENKU owns the photographed facility or that every catalog SKU follows the pictured process.

Image: supplied production-context photograph. Product ownership, facility relationship and process applicability must be documented case by case.

A useful quote starts with a useful brief

The fastest path to a serious quotation is a complete buyer request.

Include these six fields

- 1. Product and weight range
- 2. Destination country / port
- 3. Trial and target order quantity
- 4. Logo, color and packaging needs
- 5. Required tests / documents
- 6. Target date and buying stage

RFQ email template

Product: [category / SKU]
Market: [country / sales channel]
Quantity: [trial + target order]
Customization: [logo / color / packaging]
Compliance: [required tests / labels / documents]
Timing: [sample / delivery target]
